Effective May 1, 2022, SPCATB will no longer routinely test cats for feline leukemia virus (FeLV) and feline immunodeficiency virus (FIV) prior to adoption. FeLV and FIV are uncommon viruses that can be transmitted between cats. Under our new policy, testing will be limited to cats with health concerns that are associated with the FeLV and FIV, cats with known exposure, and other specific cases.

SPCATB offers FIV/FeLV testing for cats 6 months and older prior to Adoption for an additional \$20.00 fee.
